

Nova27 Partnership Program

Here at Nova27 we consider you a partner from the moment you release your first track with us. As your partners we want to see you grow as not only a producer, but also an artist. You become family! Our network is your network. We want to see you grow in everyway possible. As a producer/musician/singer/songwriter/artist/DJ, you must be aware that the music business isn't the cash cow it once was. When you search the web for a song and see more sites offering you a song for free download before you see a site that is selling the track you want, you know there is an issue that keeps artists from getting paid what they deserve. We at Nova27 do not want you to get discouraged. We are here to help you in ways beyond record sales. As a team we can surpass the stigma of the record label industry. Lets bring this game to a whole new level. Below you will see more details on our release privilege chart. As you release more tracks, you receive more privileges!
